

11/9/39

Dear Mr. Mickey. I enclose herewith Statements
showing payments made to Organisers to date.
out of the sum of £24 remitted to me. Since
May 17th. Expense Sheets covering part of
the period have been already sent you, and
I now enclose further sheets covering remainder
of the period up to, and including this week
end. From the statement you will observe
that the balance on hand at June 30th (including
payments for that week) amounts to £1.14.4½
a further cheque will therefore be necessary.
I understand from Mr. Moran, that he intended
to travel to London last week end for a
conversation with you, on various matters.
I think this is the best method of dealing
with any matters that may arise, and require
attention. Doubtless he will discuss the
advisability of holding a big demonstration
here in the near future, to arrange this
we are hampered for want of funds.
the deposit on any of the big Halls
would be at least £10. and then

there is the Printing, I think to Organise
effectively we should have the balance
of the Money that was voted by Dublin
here, and placed in Bank where we
could call on it at any time, without
bothering you. Personally I am not at
all satisfied with the Chess paring
methods adopted to men like myself.
who first drew the attention of the people
here to the evils of Partition, by cultivating
public opinion to the necessity of
removing the Border. It would be a
great pity if our activities would have
to cease through what I have referred
to, and which is giving me serious
thought. I trust you will give
this consideration.

Assured good wishes,
Yours. Fraternally,
B. J. Early.
